

19 September 2024

Dear Parents (Y9 – A2),

As part of our ongoing commitment to uphold exemplary standards in educational excellence and to promote the comprehensive development of our students, we are pleased to announce the organization of the Senior School Parent Principal Conference for the academic year 2024–2025.

At PISJES, we hold the belief that parental involvement is a vital element in nurturing an inclusive and empowering educational atmosphere for our students. We are sincerely grateful for the opportunity to collaborate closely with our parent community. Together, we share a common mission: to cultivate a culture founded on trust, respect, and collective responsibility for all facets of our children’s education. By embracing this collaborative approach, we aim not only to help our students meet established standards but also to encourage them to surpass expectations and truly thrive throughout their academic journey.

To support our efforts in this regard, PISJES conducts regular performance surveys designed to gather constructive feedback from both parents and students. These surveys are invaluable as they provide us with insights into various aspects of the educational experience, including appreciation, perceptions, concerns, and expectations. The data collected from these surveys will serve as a focal point for discussion during the upcoming conference, allowing us to foster mutual understanding and establish a collaborative pathway forward.

We are excited to invite you to this year’s Parent Principal Conference, which is scheduled to take place as follows:

Day/ Date: ***Saturday, 28 September 2024***

Reporting Time: ***9:30 am***

Conference Time: ***10:00 am – 12:00 pm***
