3 November 2024

Dear Parents of Y5 – Y8,

We are delighted to announce the Middle School Parent Principal Conference for the 2024–2025 academic year, as part of our ongoing dedication to fostering excellence and supporting the holistic growth of our students.

At PISJES, we believe that active parental involvement is crucial in creating an inclusive and supportive educational environment. We deeply value the opportunity to work closely with our parent community, sharing a common goal: to build a culture rooted in trust, respect, and shared responsibility for every aspect of our children's education. Through this collaborative approach, we strive to help our students not only meet academic standards but also exceed them, empowering them to thrive on their educational journey.

In support of these efforts, PISJES regularly conducts performance surveys to gather valuable feedback from both parents and students. These surveys provide essential insights into various elements of educational experience, including recognition, perceptions, concerns, and expectations. During the upcoming conference, the feedback gathered will be central to our discussions, helping us to build mutual understanding and create a collaborative path forward.

We warmly invite you to join this year's Parent Principal Conference:
